ARTICLE XIV. CONSTITUTION OF THE UNITED STATES

CITIZENSHIP RIGHTS NOT TO BE ABRIDGED

I. All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the State wherein they reside. No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any State deprive any person of life, liberty or property without due process of law, nor deny to any person within its jurisdiction the equal protection of the laws.

"THE TRAGEDY OF THE AGE"

During the course of his address before the Brotherhood of Central Baptist Church at week, Rev. Geo. E. Stevens said: "It's a tragedy of the age to see people with all their power asleep." When we hear the word tragedy we think of an eventful end; we think of a horrible state and we shudder as we anticipate the end.

Pastor Stevens has a vision. He sees the danger ahead. He sees because we are asleep to our possibilities. He used strong language like the watchman on the wall. He is anxious about his people and is trying to "wake them up."

In times like these we as a Race need true men for leadership, we need wise men for leadership; we need men who think and act like free men, not those who are slaves at heart. We need those who have vision, who can see our possibilities.

The horse and the ox are great power. Man rules them because man out thinks them. If it were possible for them to realize their power they would be the masters.

We need an awakening. We are like the horse or ox, in that we do not use our possibilities to our advantage. Look! for a moment at the money we earn and spend in this city each day. Over fifty-thousand dollars is a conservative estimate. How much of it is handled in a commercial way by members of our Race?

There is a reason for the statement, the tragedy of the age to see our people asleep. We need a few more men with a vision, who will sound the clarion call, and tell a weary people that the day has come for them, like the prodigal son, come to themselves and then, we will have the proud heart of another rejoice together.

What are you doing towards awakening your fellowman? He is blind who goes along the same old ruts. He is blind who spends all his earnings. He is asleep who sits quietly by and see his civil and political rights taken from him without protest.

Let us all pray for a mighty awakening of our people everywhere. Once awake, the problem is solved.

THE NEGRO VOTE IN THE SOUTH

It is said that a storm of protest has come from Southern representatives on the committee of census following the charge made by the National Association for the Advancement of Colored People, that unjust discrimination against Negro voters in the Southern States.

Representative Larsen of Georgia said it was an "insult" to the Southern common sense to make such a charge. He branded the statements as false, and said, "They do not vote because they do not want to." We do not personally know Mr. Larsen from Georgia, nor Mr. Aswell of Louisiana, neither do we know Mr. Bee of Texas, who are members of the committee on census. But we are quite sure that no one will take them seriously when they say the Negro does not want to vote. The recent Presidential election, when five Negroes lost their vote in Louisiana is positive proof that the Negroes not only wanted to vote but they were willing to die for that right.

It is not strange, however, to hear these Southern statesmen say, "They vote if they want to." These representatives know what the colored people have gone through in these Southern States for the sake of the ballot. In fact, we would not be surprised to hear some Negroes themselves say they did not want to vote or that the Negroes have no business in politics. But it reminds us of the story of the grand-niece to tell us about their longings for freedom, but always afraid to tell their masters, for fear the chains of slavery would be forged tighter. Everybody knows that there is no truth in such statements. Not that we care a figgers den about what those white representatives say concerning the Negro voting in the South. But the thing that alarms us most is that some Negroes themselves will say they don't want to vote. Brethren let's quit lying about those essential things that affect us as a race. Let's tell the truth if we have to die the next minute.

HOLD YOUR JOBS

Perhaps no subject should claim our attention just now more than that of employment. The fellow on his job is the fellow on the winning side. The "almighty dollar" is slowly but surely coming into its own again. A dollar today will buy more than it has in a long time, with bright prospects.

We are mindful of the report coming from the Hotel and Restaurant Men's Association, stating that the Negro waiters would hold their jobs as long as they did their work satisfactorily. This is a mighty challenge to the men who have their jobs. Their pose, their forethought, their good judgment, their intelligence and industry all play an important part in enabling them to make good.

It is obvious to say that while at work one should save some of their earnings. Few of us earn so little that we cannot save some if we only will. The man who saves today will be the fellow who will be ahead tomorrow. Let us all use our thoughts to a better advantage by working a little more, and saving a little more.

UNSOLVED MURDERS IN HAYTI CHARGED UP TO CANIBALISM

Four Illegal Killings On Island Are Charged To Barbarism For The Sake Of Discrediting Natives' Demand For A Square Deal.

WASHINGTON, Jan. 5.—"Eat a white man and you will live 100 years" is part of the philosophy of cannibalism in Hayti, as disclosed by the naval court of inquiry appointed by Secretary of the Navy Daniels to investigate the conduct of American marines in Hayti.

Private Clarence E. Morris of the marine aviation forces was treacherously slain by his guides and only his bones were found by the American searching party.

Lieut. Lawrence Muth, was fatally wounded from ambush. When his body was recovered the head had been severed and the head removed.

Private Harry Lawrence disappeared altogether and no trace of him, or his body was ever found. Incidents such as these are believed to have been chiefly responsible for the few illegal killings of bandits charged to marines.

JUDGE SAYS A HINDU IS OF WHITE RACE

Associated Negro Press

SALT LAKE CITY, Jan. 5.—A Hindu is white although he is black. This

is the finding of District Judge J. D. Call of Brigham City, Utah. As a consequence Purna Singh, 40, now is an American citizen. The judge ruled that a Hindu belongs to the white race and comes within the meaning of the naturalization statute, which limits applicants for citizenship to all free persons of the white race, or persons of African birth or descent.

NEGROES ASK U. S. INQUIRY INTO ALLEGED VOTE FRAUD

Negroes Appeal to Congress Charging Ballot Discrimination in Southern States

WASHINGTON, Jan. 5.—The department of justice has been asked to investigate alleged discrimination against Negro voters in Southern States, the negro defense committee was told last week by representative of the National Association for the Advancement of Colored People.

Southern members of the committee, led by Aswell, Louisiana; Bee, Texas; and Larsen, Georgia, protested that Negro witnesses were "insulting Southern commonwealths."

Negro witnesses asked that Southern congressional representation be reduced because "Negroes are not allowed to vote."

"They are allowed to vote," Representative Larsen said "They do not vote because they do not want to."

RACE CONFERENCE HELD IN VIRGINIA

Associated Negro Press WASHINGTON, D. C., Jan. 5.—A conference of Negroes of Northern Virginia for the purpose of considering the situation of the colored population in that section was held at

Masses, Virginia. This conference was similar in all respects to the conference held at Tuskegee Institute. Health, sanitation, better schools, better farming and good citizenship were discussed. Prof. Charles M. Thomas of Dunbar High School of this city spoke at one of the sessions, basing his talk on conditions in London and London counties as he found them.

MEXICAN RESENTS INSULT

Kills White Traveling Man On Moving Train Who Referred To His People As Greasers

National Negro Press Association AUSTIN, Tex., Jan. 5.—Mexicans resent being called "Greasers." This was demonstrated a short while ago when a white traveling salesman had his throat cut from ear to ear after he had referred to the Mexican people as low-down "greasers." The affair occurred upon an M. K. and T. train.

It appears that the white traveling salesman came into a coach which was pretty well filled with Mexicans who were going to various points in Texas and some to their home in Mexico from the cotton fields and labor camps. It appears that the white man could find no seat. He became infuriated, and blurted out: "It is an outrage that a white man can't find a seat in a train and that all these low-down Mexican

are employed." "I must stand up," he said. It is said that he continued this kind of haranguing for several miles on the fast moving train until one of the Mexicans rose from his seat, pulled out his knife and with one word or quarrel, he proceeded to carve up this white salesman, cut-

ting his throat from ear to ear. It is said that the man died almost instantly. When two others while he was being taken to the hospital, they too, were given their share. The Mexican was arrested and put in jail charged with murder, but it is said that he has made no remark except that his people are men and thousands of them are citizens of the United States. It developed that these people are as much opposed to being called out of their names as the Japanese people in this country are to being called Japs, and that this is just as distinct to them as it is to the colored people to call them "nigger."

The affair has created no little comment, and it is said down this way that the Mexican people intend to give out of their names as the Japanese people in this country are to being called Japs, and that this is just as distinct to them as it is to the colored people to call them "nigger."

Associated Negro Press

SYDNEY, Australia, Dec. 29.—A riot of Japanese claiming racial superiority, ran amok in Broome, Western Australia, the center of the pearl industry, where large numbers of Japanese are employed.

In a general riot which followed two Japanese were killed and a number of others were wounded. Two white policemen were injured.

Later the riot act was read and all whites were sworn in as special constables. They were quickly organized and armed, under army officers began patrolling the town and dispersing the Japanese.
